[Advertisement.] DISEASES OF THE LUNGS-NOTICE.

Dr. Robert Hunter hegs to inform his patients in Philadelphia that he has opened an establishment in that city, under the professional charge of Dr. F. Morson, for the special treatment of diseases of the throat and imags.

Dr. Morson is a member of the Royal College of Surgeons, London, and has enjoyed, both in that city and New York, long and extractions in the treatment of pulmonary affections.

In the Advantage of the Royal Contage of Surgeons, London, and has enjoyed, both in that city and New-York, long and great experience in the treatment of pulmonary affections. Dr. HUNTER would also state, for the information of his patients residing in Beltimore and Washington, that Dr. Jours Blissand Williams will hereafter be associated with the Baltimore office.

These arrangements have been rendered necessary by the growth of the practice in Philacelphia and Baltimore, and by the retirement of Dr. Janes Hunters in consequence of ill health. Patients in these cities will be future enjoy not only all the advantage of Dr. Hunter's advice, but the additional benefit of the personal care and supervision of skillful and accomplished resident physicians.

In The Specialist and Journal of Diseases of the Chest for Pebrury an extended explanation of Dr. Hunter's views and treatment will be found, with much additional information, which should be read by every one predisposed to or suffering from any affection of the throat or lungs. The Specialist can be procured of the publishers, Mearre Sherman & Co., Autor House. Persons residing at a distance, who are prevented by the state of their health, the weather, or other considerations from visiting the city for advice, can be prescribed for by letter. In such cases it is necessary that the patient should carefully describe the present symptoms and the past history of his disease. To render such description more exact, a late of questions has been prepared, which will be sent, with a specimen copy of The Specialist, on a spilication to either of the following addresses:

FIRE DEPARTMENT BALL,-The Fourteenth Annual Ball of the Williamsburgh Fire Department took place on Wednesday night at the Odeon, in Fifth street. In point of numbers it fell considerably short of last year notwithstanding which the spacious hall was well filled, and not a few of the beautiful and accomplished ladies of Williamsburgh honored the occasion with their presence. Mr. Benj. W. Willson President of the Fire Department, acted as floor mauager, and was assisted by Messrs. D. Donevan, W. M. Scott, J. Homan, J. F. Wiggins, W. Van Valkenburg, and John H. Perry. These gentlemen looked after strangers and invited guests in a manner highly creditable to themselves and worthy of imitation by committees of other balls in that locality, whose for getfulness or uncourteous deportment is not uncounmon. The music, by Dodworth's Band, was irrevisti bly excellent, and, although a novice, one would find it much easier to step to it than remain a quiet observer. At 1 o'clock the company partook of a sumptuous supper prepared by the proprietors, Messrs Kemp, and on again returning to the hall the compa ny appeared in the best of spirits, and dancing was kept up with vigor until 5 o'clock. The receipts for tickets were about \$1,000, and after deducting expenses will leave a fair sum, which will be added to the Fire Department Fund.

THE CITY TAXES .- A meeting of property holders was held at the City Hall on Wednesday evening, to discuss the reasons for the enormous taxes they are compelled to pay, and to devise means in reducing them, or from preventing heavier burdens which are threatened by projected improvements. Ex-Mayor Tallmadge presided, and after an interchange of views as to the best course to pursue, a Committee of one from each Ward was appointed to fix upon a basis of action, and report at a future meeting-whereupon the following gentlemen were named as such Committee: First Ward, J. H. Smith: Second Ward, G. S. E. Johnson; Fifth Ward, Foster Pettit; Sixth Ward, Charles Kelsey; Seventh Ward, Hamlin Blake; Eighth Ward, J. G. Bergen; Tenth Ward, A. B. Baylis; Eleventh Ward, John Halsey; Twelfith Ward, N. Luqueer; Thirteenth Ward, Wm. Wall; Fourteenth Ward, Graham Nally; Fifteenth Ward, Mills P. Baker; Sixteenth Ward, Henry Oltman; Seventeenth Ward, N. Bliss; Eighteenth Ward, N. Wyckoff.

T. G. Tallmadge being appointed Chairman, the meeting adjourned to reassemble at the call of the

THE CITY RAILROADS .- A number of laborers were engaged yesterday in clearing the ice from the railroad tracks, and about double their number were standing on the sidewalks looking on. If the work is prosecuted with energy, and the weather continues favorable, we may expect to see all the lines in operation before very long. All the tracks have remained imbedded under the snow since the first great storm.

INDIGNATION MELTING.—A call has been issued for an Indignation Meeting, to be held at Weilwood Hall, corner of Newark avenue and Jersey street, in Jersey City, this evening, at 7½ o'clock, to consider the action of the Common Council in reference to Aid. Tyrrell on Thesiary evening, who was refused his seat in the Common Council as a representative from the Fourth Ward. There is a movement on foot among the residents of the Ward to carry this question at once to the Supreme Court for decision. There is a good deal of interest manifested on this subject.

manifested on this subject.

The Alms-House, under the Superintendence of Mr. Whitisy, about 50 persons. Of these is are men, 25 women, and 50 children. Also, 154 families are receiving aid from the Alms-House. There is nothing like so much suffering this Winter as last, because there has been more employment. This is now increased by the arrival of the British steamers, which afford a good deal of work to laborers, and thus give much relief. The annual appropriation of 64,500 has been exhausted and overdrawn about 6250, and the fiscal year will continue until the lat of May. A good deal of relief has been afforded through the Rev. Mr. Veninder, city missionary, to whum donafina are sent for that purpose. It is necessary, however, for him and the Superincipates of the Poor to work together to prevent importious by those who would giadly get double rations. There are some who are indolent whose applications are denied.

JERSEY CITY AND BERGEN POINT RAILROAD .-JERSEY CITT AND BERGEN FOINT RAILROAD.—
Beyond Committee of the Common Council, to whom was referred the application of this Company for the privilege of laying their rails in Jersey City, have reported in favor of the application, and designate its route as starting from a point near the Ferry, through Hudson, York, Oregory, Wayne and Collette streets and Reliroed avenue, to the boundaries of the city. The report was received, and laid on the table for future action. Remonstrances were also presented against granting this privilege to the Company.

LAW INTELLIGENCE.

SUPREME COURT-GENERAL TERM-FRE. 21.

The Court met, pursuant to adjournment, at 11 a.m. The court room was crowded, though not so densely as the Thursday before; but nothing remarkable took place. Motions and arguments were heard before Justices CLERKE and ROOSSVELT and Judge Davies or PEARODY, and the following decisions ren-

Decision of causes argued at former terms: counsel to give consent to the entry of judgment, as if argued before and decided by Judges Mitchell, Rooskyker

and CLERKE.
Causes argued before Judges MITCHELL, ROOSEVELT and
MORRIS.

Report to be affirmed without costs of appeal, if plaintif consents to deduct #55; otherwise, new trial granted without costs of appeal, if plaintif consents to deduct #55; otherwise, new trial granted without costs of appeal. The report is not clearly against the weight of evidence. If a builder agne to pay #25 a day for every day's delay beyond a certain time, and part of the delay be occasioned by the owner, the hurden of proof is on the owner to show that the builder was really guilty of negligence in not completing in day time. Que whether the owner can insist on any deduction, if he was a partial cause of the delay.

A builder who has asseigned his claim for work done, with a covenant that the whole is due, is a competent witness for his assignee.

Livingston art. Banks, &c.

Rules laid down in the opinion for assessing plaintiff's damages in an action on covenants as to title of land where the purchaser is evicted of part of the lands.

The covenants of title &c. being by two tenants in common, one of whom is since dead, the action may be against the executive.

one of whom is since dead, the action may be against the execnous and the servivor.

The purchaser, having sold one of the four lots with and one
without covenants, cannot recover damages as to either of those
lots; as to them, the grantees (if any one) are to recover.

Mills agt. Thursby, &c., executors.

Form of judgment to be modified without costs of
appeal to either party.

In an action against executors on a judgment against their
testator, the judgment, nomatter what defendant's answer may
be, is to be special, that the debt he levied on the property of
the testator in or which may come to their hands. Judgment
for costs may be against them personally, or against their estate,
as the Coort may direct.

ACTION AGAINST JUSTICE FOR FALSE RETURN.

ACTION AGAINST JUSTICE FOR FALSE RETURN.

Clarkson agt. Wallis.

Judgment for defendants affirmed, with costs. An action cannot be sustained against a justice of the peace merely because he has omitted to return on certiforar some of the evidence taken before him, when there is no proof of malice in the justice or injury to the plaintiff, or that the cause was ever brought to a hearing on the certiorari, or that the cause was ever brought to a hearing on the certiorari, or that the omission was material to plaintiff's success.

This is a suit in effect for a difference of opinion between justice and counsel—a kind of suit not to be encouraged.

Murphy sat. Logan.

Report of referee affirmed, without costs of appeal. The evidence sustaining referee's report is so alight that no costs can be given.

In questions of evidence we should lean to the affirmative.

USE OF CAMPHENE IN A PRINTING OFFICE DOES NOT

Harrer agt. The Mutual Instrume Company of Albany.
Judgment for plaintiff on the verdict of the Jury.
The defendants, having insured against the hessards of the printing business, and it being proved that camphene is a necessary and ordinary material used in the process of printing, they are liable, notwithstanding the use of that material may have occasioned the loss.

LIFE INSURANCE.

Thompson agt The Fagle Life and Health Insurance Co.
Judgment for plaintiff on the verdict of the Jury. In
the absence of fraud and some interest being shown, viz. that of
a creditor in the life of his debtor, the amount for which the
premium was said, must be deemed the value of the interest of
the insured, as fixed by mutual agreement. Such policies are of
a dangerous tendency; but the law seems to sanction them.

Thompson agt. The Eighth Avenue Bank.

Judgment affirmed with costs. The original cause of action spainet the Bank on their protested circulating notes, was not destroyed, but only diminished by the acceptance of a partial dividend from the Bank Department. As to the balance. partial dividend from the Bank Department. As to the balance defendants, by demurring, admit due demand and non payment. The legal consequence is, that "they are still justly indebted" to the plaintiff, as claimed in his complaint.

WHAT CONSTITUTES A PARTNERSHIP?

Judgment for plaintiffs affirmed with costs. Johnson had a large interest in the business; was to carry it on for
several years in conjunction with Smith; was to receive a large
allowance." for his responsibility and attention in conducting the
business; and was therefore in law, if not in fact, a partner as
between Smith & Co. and persons dealing with them.

Seas agt. Burnham.

Decree of Surrogate affirmed, with costs. The mistake in the judgment decket was a prescribed great. It

take in the judgment docket was a more clotical error, stated the judgment to have been recovered in 1852 instead 1851. In all other respects it was perfect. Such an error profices no one, and no one, therefore, should be allowed to avolutionally of it. The date of the docket itself is almitted to it.

Jewett and others agt. Russell and others.

Judgment of Special Term affirmed, with costs. The demand sned on belonged to the assignors of plaintiffs. The alleged payment was made, with full notice, to other, persons not entitled to receive it. The referee, therefore, rightly disallowed it. There is also a peculiar fitness, though not perhaps a legal reason, that the avails of the from in question should go to those from whom the iron came.

There was a fair amount of business at the Stock Board to-day; but the prices of yesterday were not generally sustained. The bears industriously circuated a rumor that Mr. Crampton had been dismissed. and that he would leave in the next steamer. The changes, however, were not very important. Another explanation of the lack of buoyancy in the market is that the shorts have bought in freely for the last few days, and, that demand being supplied, the supply is about equal to the demand. There is still, however, a disposition to speculate among outsiders, and the plentialness of money promotes such speculations. Reading was sold at the close at 90] -a decline of | P cent. A meeting of the Stockholders of the New-Haven and New-London Railroad was held at New-Haven, yesterday, to consult on some measures to release the road from its embarrassments. It was stated on the behalf of the Directors that they had exhausted their means in sustaining the enterprise. At present, the receipts only about clear the expenses, but it was thought that a connection with the Stonington Road, thus making the New London a part of a direct land communication between New-York and Boston, would render it profitable. Mr. Buckingham, one of the Directors, stated that the charter of that extension was in the hands of one or two of the Directors for the benefit of the road, and unless the stockholders took it up, advanced money to meet the pressing necessities of the company, and extended the road, the bondholders must take it. If the company would farnish \$100,000 he thought other parties could be found who would supply the rest of the money required. Messrs. Wyllis Blackstone, Benjamin Noyes, Thomas M. Lyon, John D. Leffingwell, C. S. Bushnell, Wm. R. Clark and S. muel C. Johnson, were appointed a Committee to report to the stockholders as to the best method of meeting the obligations of the company,

'The number of failures is no larger than usual at the season of this year. Considering the long-continued stringency of the money market, it is a wonder that more have not occurred.

Collections from all parts of the country continue good, and reports in regard to trade favorable.

'The New-York dry gooods jobbing-trade the past week has been fair, considering the cold weather. The importers, however, complain of inactivity. Many styles of foreign goods have slightly declined in price."

The following summary shows the aggregate of the Resources and Liabilities of the Banks of the State of New-York, as exhibited by their reports to the Superintendent of the Banking Department of their condition on the morning of Saturday, the 29th day of December, 1855. The report is made up from returns from 286 banks and one branch. Two banks have finally closed. Four new banks have organized sinclast report. The private letters by the Canada generally predict that peace will grow out of the present negotiations. The Money market is represented as stringent, but easier than it had been. Some relief was looked for during February. The questions between this country and England are not looked upon as serious, although they had some effect upon the Stock market. The letters bring a considerable amount of orders for American securities from England and from the Continent, and these orders would have been larger but for the check given by the Crampton and Central American controversy. Generally the letters are cheerful and hopeful. The Money Circular of

Central American controversy. Generally the letters are cheerful and hopeful. The Money Circular of Messrs. Benson & Co. is as follows:

"Loxdon, Feb. 1, 1358.

"Public confidence, in the probability of peace being established, continues unabated. Yesterday Parliament was opened, and while the speech from the Throne, and the explanations of the Ministers, express the determination of the Government to relax no naval or military preparations, yet, at the sametime, they show that the propositions of peace have been accepted with an earnest desire to bring them to a successful conclusion. These explanations also show that there is the most perfect accord between the Albed Governments, and that peace is believed to be desired by Russia. Notwithstanding, however, this prevailing opinion in favor of the probability of peace, Consols do not quite maintain the highest point they strained during the week, in consequence of the tightness of the money market. On the 25th ultimo we quoted them at 90420; they subsequently advanced to 91; 2914, and to-day we quote them at 9042 Pif or money, and 89; 291 for the account.

"Money has been in very active demand on the Stock Exchange, and in some instances very high rates have been paid for temporary accommodation. We may, however, quote the current rate on Government Securities at 6 v cent, and on Foreign Securities from 8 to 10 P cent. In Paris the report of the Queen's espech was favorably received. The upward tendency of prices there, however, as well as here, is checked by the extreme dearness of money, which will probably continue for sometime.

"There has been an active demand for American Securities during the past week, confined chiefly however to those Railroad Bonds which have obtained currency in this matter. Illinois Central 7 P ct. Bonds have been sold at 78 to 80, and to day are worth 79. Freeland Bonds at 33 to 85, and are now offered at the latter price. The shares of this company have changed hands at 2 P ct. discount. New York Central 6 P ct. Bonds have been so

The first section of the Fort Wayne and Chicago Railroad, being some 25 miles, extending from Crestline on the Cleveland, Columbus and Cincinnati road, to Columbia, a distance of about 22 miles, is complete. Trains are now running to that point, and already the receipts are much above expenses. The next section to Warsaw, will be opened in May, and to Plymouth, Ind., in June next. At Plymouth a connection with the Laperte and Michigan Southern roads will be made, making a through line to Chicago.

LARD—Holders in pressing sales had to submit to 63), and in some cases the Lard was rejected on account of fraudalent adulteration with water and farina. The knavery of these practices is only equaled by their stapidity, as the tests are simple and detection certain. Importers will seek their remedy by transferring their orders to those ports where the character of American commerce is more strictly uphed than at New-York, 64 has been paid for prime Lard since these disclosures, but only for a small quantity.

can commerce is more stand times these disclosures, but only for a small quantity.

RICE—The business is to a moderate extent at former prises; saless of 200 tierces at 4;455c. The stock but slowly augments.

SPIBITS—By another 63 yies, Pelivousin Brandy at 43;53 do Michel at 43 50 cash, slightly damaged.

SUGARS—The marker retains at buoyancy and we think is at least 1c. higher on most kinds within a day or two. To day the trade have operated more freely some has been taken for Philadelphia. The receipts are to a fair extent, though the stocks do not materially accumulate. Refined continues in request for coffee qualities at the late improvement. The stocks held by refiners of raw is not iarge; they are very careful, at present prices, not to invest more than can be worked off in a short future; their faith in a continuance of the high rates, now current for a long season, is not sufficiently strong to lead them into extensive purchases. The sales are 500 boxes Havanu at 850 90c.; 450 hids. New-Orleans at 82 9c.; 400 hids. Cuba Mascovado at 75 68 fc., and 56 hids. Porto Rico at 535 c. By auction, 62 hids.
